This week’s activities: 8/5/13 – 8/9/13
1) Overhead Electrical Installation (drilling for supports, will cause minor vibrations and noise) 8/5 – 8/9
2) Framing of walls 8/5 – 8/9 (screw gun in use, will cause noise)
3) Anchor Drilling for Optical Racks (Roto hammer in use, will cause noise and minor vibrations)

Next week’s activities: 8/5/13 – 8/9/13
4) Overhead Installation (Roto hammer in use, will cause noise and minor vibrations)
5) Taping of walls (may cause dust, Level 10 to minimize impact of dust as much as possible)
6) Corridor ceiling grid work (may cause noise in the corridor)
7) Fire Panel relocation TBD

CONSTRUCTION IMPACTS
8) Jobsite Working Hours: 6am to 2pm.
9) There will be temporary barricades and Floor protection in the Corridors Hallways of the 2nd floor and construction noise for the Duration of the Project.

10) The Project will still have some activities that will be impacting the Walls adjoining the Labs. Sheetrock installation, screwing
off sheetrock, taping, texture, HVAC installation, Fire Sprinkler, Installation. All the above tasks will be ongoing throughout the duration of the Project.

11) Anchor Drilling (this activity will cause noise and some vibration) to be performed between the hours of 6:00 am and 2:00 pm. Ceiling slab will be most affected by drilling.

Note: For your safety and the safety of the workers: No unauthorized persons may enter the construction area without authorization of Level 10 Construction
