2019 – 2020 Honors Program Application Form

This petition is required of all undergraduates who intend to have their bachelor’s degree in Physics conferred with honors during the current academic year. Students completing and submitting this form must:

1. Have minimum G.P.A. of 3.50 for courses required for the major, and a 3.30 overall G.P.A.

2. Fill out a list of courses required for the major (using your existing course form on file with the Undergraduate Coordinator), compute your current G.P.A.s to confirm eligibility, and provide current transcript. (Final Honors eligibility will be determined when graduation quarter grades are reported).

3. Complete a Senior Thesis by meeting the deadlines and requirements described on the Senior Thesis Application form.

(Note: The Firestone Award recognizes students undertaking honors projects in the social, physical, and natural sciences nominated by their academic programs or departments. The medalist receives an engraved bronze medal, citation, and check at an awards ceremony. Honors students wishing to be considered for the Firestone Award must complete their thesis and submit it to the Undergraduate Coordinator’s office by noon, Tuesday, May 19, 2020.
